NEUR 736 CLINICAL NEUROLOGY 4 Credit Hours
ELECTIVE
This senior elective functions as a Sub-Internship in Clinical Neurology. This rotation provides a view of Neurology residents' life while providing a fully supervised learning environment. There is no call requirement, but a call experience can be requested. The rotation includes inpatient, outpatient and elective experiences. Multiple educational venues are used to enhance the learning activities, including formal lectures, bedside teaching, and Blackboard based learning modules. Activity-Hours/Week: Direct patient care-10. Bedside teaching Teaching rounds-16. Didactic conferences-4. Independent learning-10.
Contact: Arianne Marcoux; ariannemarcoux@unmc.edu; 402-552-2153; CDS 21138 (Zip 8440).
Typically Offered: Each four weeks.
Capacity: 5.
Visiting Student Information: Visiting Students are not to contact faculty or clinical departments prior to acceptance through VSAS. Doing so is considered a professional breach and may disqualify the student from being offered a rotation.

NEUR 761 OFF CAMPUS NEUROLOGY 4 Credit Hours
ELECTIVE
Arrangements must be made by the student to get the outside rotation offer. The rotation then has to be recommended by the student's advisor and approved by the Elective Director (Dr. Torres) at least two months in advance of the elective date. Prerequisite: Off-Campus Approval form completed.
Contact: Arianne Marcoux; ariannemarcoux@unmc.edu; 402-552-2153; CDS 21138 (Zip 8440).
Typically Offered: Each four weeks.
Capacity: Variable.
Location: Variable.
Visiting Student Information: This course is NOT available to visiting students.

NEUR 790 CLIN RSCH ELECTIVE 4 Credit Hours
ELECTIVE
This elective offers students an opportunity to work under close mentorship from our faculty on clinical neurology research. There are many on-going and new projects available at all times. The student would be able to learn basic knowledge on clinical research. The learning program would be designed between the mentor and the student and then approved by the Elective Director (Dr. Torres). If you would like to participate in this opportunity, please contact your choice of the Neurological Sciences faculty listed below. If you are not sure with whom you would like to work, please contact Student Coordinator, Arianne Marcoux to set up a preliminary meeting with the Clerkship Director, Dr. Torres to discuss your interests and review possible options. Previous rotating students have been able to get abstracts accepted in National and International meetings, and present their posters, and even publish articles. Therefore, we feel that this opportunity would help students interested in pursuing a career in any of the neuro-related residencies, including Neurology, Neurosurgery, Neuroradiology, Neuropathology, etc. This elective offers students an opportunity to work with faculty members in clinical research of neurological diseases and to participate in new or ongoing research projects.
Contact: Arianne Marcoux; ariannemarcoux@unmc.edu; 402-552-2153; CDS 21138 (Zip 8440).
Typically Offered: Each four weeks.
Capacity: Variable.
Visiting Student Information: This course is NOT available to visiting students.
