

DOCTOR OF NURSING PRACTICE PROGRAM (DNP)

Purpose

The purpose of the Doctor of Nursing Practice program is to prepare individuals for the highest level of nursing leadership and practice within organizations and systems, with the ultimate goal of improving health care for diverse populations. The DNP program focuses on providing education in key areas such as evidence-based practice, quality improvement and systems leadership.

Goal

The goal of the Doctor of Nursing Practice (DNP) program is to prepare graduates for the highest level of nursing leadership and practice within organizations and systems, to improve health care delivery and patient outcomes at all levels and for diverse populations, to serve as faculty in nursing education programs, and to translate research findings for clinical practice.

Program Outcomes

Upon completion of the program, graduates will be able to:

1. Develop and evaluate new practice approaches based on theories and empirical evidence from nursing and other disciplines.
2. Demonstrate organizational and systems leadership for quality improvement/patient safety for health care systems and populations.
3. Design, implement and evaluate processes to improve health practices and outcomes at the institutional, local, state, regional, national, and international health delivery levels.
4. Demonstrate leadership in the selection, use, evaluation, and design of information systems/technology for improvement and transformation of health care.
5. Lead the development, implementation, and evaluation of health policy and its impact on health outcomes at the institutional, local, state, regional, national, and international health care delivery levels.
6. Engage in interprofessional collaboration in complex health care delivery systems.
7. Design, implement, and evaluate care delivery models and strategies to improve population health.
8. Demonstrate advanced levels of accountability and systems thinking to advance and uphold professional nursing values.
9. Demonstrate advanced levels of clinical judgment, systems thinking, and accountability in designing, delivering, and evaluating care in complex situations.

DNP Options for Certification

DNP students and graduates are encouraged to complete certification in a relevant content area based on individual career goals and areas of study. DNP graduates who are certified as nurse practitioners or clinical nurse specialists are strongly encouraged to maintain that certification as evidence of clinical knowledge and skill. There are additional options for certification that relate to those DNP students and graduates who have a nursing leadership/administration/executive focus that includes:

- Advanced Nurse Executive (NEA-BC)
- Nurse Executive (NE-BC or CENP)
- or as a Certified Nurse Manager and Leader (CNML).

Admission

Admission Requirements

Following receipt of the completed application from NursingCAS and a complete set of transcripts from all educational institutions attended, designated faculty evaluate, interview, and select applicants and recommend them to the professional graduate committee of the College of Nursing for admission. Admission is competitive and capacity is limited. Applicants with strong educational backgrounds are considered first. See the Admission Policies for Doctor of Nursing Practice Degree Programs policy (5.3.4) in the Student Policies section for details.

Admission Key Dates

DNP students are admitted once annually.

DNP Program	Application Opens	Application Due	Program Start
MSN to DNP	October 1	January 15	May
BSN to DNP	October 1	January 15	August

Note: January 15 is the application deadline, which includes receipt by NursingCAS of all transcripts and letters of reference. In addition, all supplemental materials must be received by the College of Nursing by this date.

Curriculum

Curriculum Requirements for the Degree of Doctor of Nursing Practice

The DNP program for the BSN to DNP is a 66-70 credit program based on advanced practice specialization in the DNP program. The DNP program for the MSN to DNP is a 35-credit program. All DNP students complete a DNP project in their program. Elective courses are also possible, based on a student's career goals and consultation with his/her faculty advisor. BSN to DNP students have an integrated plan of study that includes the required DNP courses and additional courses to meet MSN essentials.

Required Courses

All DNP students take the required courses.

Code	Title	Credit Hours
BIOS 806	BIOSTATISTICS	3
EPI 820	EPIDEMIOLOGY IN PUBLIC HEALTH	3
NRSG 701	IMPLEMENTING EVIDENCED-BASED PRACTICE	3
NRSG 702	METHODS FOR ASSESSING CLINICAL PRACTICE OUTCOMES	3
NRSG 703	CHANGING COMPLEX SYSTEMS TO IMPROVE HEALTH CARE DELIVERY	4
NRSG 704	CLINICAL INQUIRY	10
NRSG 709	HEALTH CARE POLICY	3
NRSG 731	TRANSFORMATIONAL LEADERSHIP	3

NRSG 755	HEALTH CARE ECONOMICS AND FINANCIAL MANAGEMENT	3
Total Credit Hours		35

BSN to DNP Plans of Study

BSN to DNP programs are offered in 3- and 4-year plans of study. Below are exemplars of the 3-year plans for each of the specialties listed below.

- Adult-Gero Acute Care Nurse Practitioner
- Adult-Gero Primary Care Nurse Practitioner
- Family Nurse Practitioner
- Nurse Leader/Executive
- Pediatric Primary Care Nurse Practitioner
- Pediatric Primary & Acute Care Nurse Practitioner
- Psychiatric Mental Health Nurse Practitioner
- Women's Health Nurse Practitioner
