

COUNSELING, PSYCHOLOGICAL, & DISABILITY SERVICES

Counseling, Psychological, & Disability Services

The University of Nebraska Medical Center takes pride in its diverse population and is committed to providing all students the opportunity to take full advantage of its programs and facilities. In keeping with this philosophy, UNMC strives to eliminate architectural and programmatic barriers that may prevent qualified students with disabilities from obtaining an academic or professional degree. Reasonable accommodations (e.g. auxiliary aids and services or academic adjustments) are offered to provide students with disabilities an equal opportunity to participate in academic programs and to promote and facilitate the integration of students with disabilities into the mainstream of university academic life. Students should initiate requests for accommodation; however, the accountability and responsibility of accommodations is shared among faculty, students, administrators, and staff. Reasonable accommodations for students with disabilities are designed to provide equal access in a manner that does not compromise essential elements of academic programs.
