CARDIOVASCULAR INTERVENTIONAL TECHNOLOGY

Degrees Offered
Bachelor of Medical Imaging & Therapeutic Sciences
Post-Baccalaureate Professional Certificate in Cardiovascular Interventional Technology

Length of Program
Each semester consists of approximately 17 hours of course work and clinical rotations scheduled throughout the 9-month program, starting in August and ending in May the following year. Program education covers both vascular and cardiac interventional technology.

Description
Completion of an accredited Radiography program, ARRT certification in Radiography, and 27 specific college prerequisites (http://www.unmc.edu/alliedhealth/education/vit/admission/) are required for admission into the CVIT Program, which is offered as a post-primary certification modality at UNMC.

Members of the CVIT faculty include radiologic technologists with VI and CI certification, interventional radiologists, nurses, and program directors that teach courses relating to their expertise.

After completion of the program, graduates are awarded a Bachelor Degree in Medical Imaging & Therapeutic Sciences or Post-Baccalaureate Professional Certificate in Cardiovascular Interventional Technology. Graduates are eligible to apply for the American Registry of Radiologic Technologists certification in Cardiac Interventional Radiography and/or Vascular Interventional Radiography if the post-primary certification eligibility requirements are met. Requirements can be found in the ARRT Certification Handbook on the ARRT web site (https://www.arrt.org/).

Degree Requirements
Students must successfully complete each course within the CVIT curriculum in order to be considered for the Bachelor of Science degree in Medical Imaging & Therapeutic Sciences. A minimum total of 120 semester credit hours are required for the Bachelor of Science degree in Medical Imaging & Therapeutic Sciences. Students must transfer a minimum of 27 semester credit hours of specific prerequisite coursework, and be awarded up to 60 semester credit hours for their radiography curriculum. Additionally, students will complete approximately 34 semester hours within the CVIT curriculum. Students must also successfully complete each course within the CVIT curriculum in order to be considered for the Post-Baccalaureate Professional Certificate in Cardiovascular Interventional Technology.

All required didactic and clinical courses must be completed with a minimum letter grade of C- or better in order to successfully complete the program. The 9-month program consists of online didactic coursework and clinical experiences. The 400 level courses are designated for students pursuing the Bachelor of Science degree while the 600 level courses are designed for students pursuing the Post-Baccalaureate Professional Certificate.

Admissions
Cardiovascular Interventional Technology
The mission of admissions in the College of Allied Health Professions is to advance evidence-based recruitment and admissions practices that are inclusive, equitable and balanced with respect to experiences, attributes and metrics to recruit and admit applicants for the purpose of preparing highly competent, collaborative and compassionate professionals dedicated to improving the health and healthcare of all individuals and communities.

For specific CVIT admissions, application, and timelines, visit: CVIT Admissions (https://www.unmc.edu/alliedhealth/education/vit/admission/).

Certification and Licensure
Certification
The American Registry of Radiologic Technologists (ARRT) is the credentialing organization that recognizes individuals qualified in the
use of ionizing and non-ionizing radiation to promote high standards of patient care in diagnostic medical imaging, interventional procedures, and therapeutic treatment. The ARRT tests and certifies technologists and administers continuing education and ethics requirements for their annual registration.

ARRT Post-Primary Certification - The ARRT provides certification in Cardiac Interventional and Vascular Interventional disciplines.

Upon completion of the CVIT program at UNMC, graduates are eligible to apply for the national examination(s) for certification offered by ARRT.

For more information about the ARRT and requirements for certification and registration please contact:
The American Registry of Radiologic Technologists (https://www.arrt.org/)
1255 Northland Drive
St. Paul, MN 55120-1155
Phone: 651.687.0048

Licensure
Depending on the state in which you decide to practice, you may also be required to become licensed as a radiologic technologist. Each state has its own laws in regard to licensure. Individual states hold the authority to administer the license and grant individuals permission to practice radiologic technology within their state.

More information on licensure in Nebraska (http://dhhs.ne.gov/Pages/default.aspx)
