

CYTO HANDBOOK: STUDENT ACADEMIC POLICY

Purpose

The Student Academic Policy defines the academic requirements for course completion and program progression within the Diagnostic Cytology Program.

Policy

Every student must meet the minimum program/course standard listed in the course syllabus.

Failure to achieve the minimum program/course standard listed in the syllabus will result in consequences outlined in the “Student Probation (Performance, Progression, and Remediation) Policy” in page 11.

Students must successfully complete all program requirements to be eligible for graduation from the program. The students will not be allowed to appear for the ASCP Board of Certification Examination until they successfully complete the program.

Please see the Diagnostic Cytology Plan of Study (<https://catalog.unmc.edu/allied-health-professions/cyto/#curriculumtext>) or the Diagnostic Cytology DAO Plan of Study (<https://catalog.unmc.edu/allied-health-professions/cytology-dao-master/#curriculumtext>).
