

CLINICAL COMPLIANCE

Clinical Compliance

Policy Scope

This policy applies to all Magnetic Resonance Imaging (MRI) students.

Policy Statement

Accidents/Incidents:

As general policy, MITS students will comply with the policies and procedures with the clinical site at which they are assigned. It is the policy that there be written reports of all unusual incidents/accidents.

An incident is an unusual occurrence which is not consistent with the routine operation of the institution or clinical rotation which may or did cause harm, involves possible negligence, requires some immediate consideration or action by a supervisor.

A student enrolled in a program in the Division of Medical Imaging and Therapeutic Science is expected to provide prompt, complete and accurate written documentation of the details related to any accidents/incidents, thus enabling corrective actions and/or programs for prevention. The program adheres to the Infection Control Policy for University Hospitals and Clinics. Students with signs and symptoms of an infectious process should report immediately to the program director for appropriate referral.

All accidents/incidents must immediately be reported to the technical supervisor or immediate person in charge. Proper report forms must be completed.

Equipment Use and Operation:

MRI departments employ the use of highly specialized equipment. Any equipment failure or equipment that is not in proper working order must be reported immediately to the technical supervisor. Do not place any calls to equipment representatives. Do not attempt to repair.

Blood Borne Pathogens Exposure Plan for Students:

UNMC's Bloodborne Pathogens Exposure policy (https://wiki.unmc.edu/index.php/Bloodborne_Pathogens_Exposure/) will be followed.
