

OFFICE OF ACADEMIC SUCCESS

Tymaree Sing, Academic Success Coordinator
Student Life Center 2039
tsing@unmc.edu
402-559-8106
www.unmc.edu/student-success/academic-success/index.html

The Office of Academic Success (OAS) seeks to enhance the educational journey of UNMC students and coordinate resources and develop tools to enhance university-wide student learning objectives, retention, student academic performance, and support student wellness. Students admitted to UNMC programs are among the most academically accomplished. The demands of health science education sometimes outstrip a student's ability to maintain an adequate learning pace using their customary study habits. For information on our student support programming and academic success tools, please visit Academic Success Tools.

Our office assures that all new UNMC students can effectively fulfill the onboarding requirements necessary to continue their academic journey by providing information and tools designed to maximize the student experience. For more details about onboarding requirements, please visit our Onboarding page (<https://www.unmc.edu/student-success/academic-success/onboarding/>).

OAS is a unit within the Division of Student Success.
