

# FAILING ACADEMIC PERFORMANCE

---

The SEC considers the following when determining the consequences for a failing grade performance:

## Phase 1

- **Failure of a single Block** which will be remediated. The SEC will be notified of the Block failure and communication will be sent to the student outlining expectations and available resources.
- **Failure of a second Block** which will be remediated. The SEC will be notified of the Block failure. The SEC will request that the student meet with a subcommittee of the SEC to review the student's overall academic performance and discuss academic expectations, approach, and resources. Subsequently, communication will be sent to the student outlining expectations and available resources.
- **Failure of a third Block** will result in dismissal from the COM.

## Phases 2 and 3

- **Failure of a single Clerkship or elective** which will be remediated. The SEC will be notified of the Clerkship or elective failure. The SEC will request that the student meet with a subcommittee of the SEC to review the student's overall academic performance and discuss academic expectations, approach, and resources. Subsequently, communication will be sent to the student outlining expectations and available resources.
- **Failure of a second Clerkship or elective** will result in dismissal from the COM.

The remediation of a Block, Clerkship, or elective must be passed. Failure to successfully pass remediation of a Block, Clerkship or elective will result in dismissal from the COM.
